

MUNICH ELECTRIFICATION
ME DISCO

*"Keep the EV safe and
enable maximum performance."*

MUNICH ELECTRIFICATION
ME DISCO

COST DOWN

Reduced cost and system complexity due to reduced number of physical components and interconnections with quicker time to market

MECHANICAL DESIGN

Robust Design, validated according to automotive requirements. All assembly operations in single plane

INTEGRATION

Dual-pole disconnection switch combined with pyrotechnical short circuit cut-off

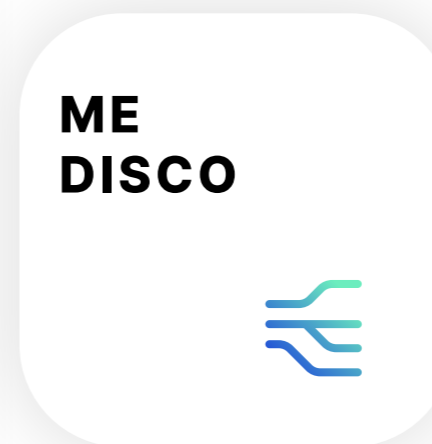

REQUIREMENTS

The ME DISCO is designed for zero load switching applications

COMPONENT REDUCTION

Fuses and contactors are combined within one product – the ME DISCO

- Designed for automotive, CV and ESS environments
- Proven capability to disconnect 900 V at 20 kA
- Designed for safety relevant applications
- Alternative solution to regular contactor fuse combinations
- Complementary product to the ME Smart Battery Sensor
- Double-Pole-Single-Throw, zero load-current, switch for up to 1000 V battery systems and wake-up methods

MUNICH ELECTRIFICATION

ABOUT US

CONNECTED MOBILITY AND CLEAN ENERGY STORAGE TECHNOLOGIES TO CREATE MEANINGFUL IMPACT ON EVERYONE'S LIFE.

COMBINING SILICON VALLEY'S SPIRIT, PACE AND AMBITION WITH GERMAN ENGINEERING EXCELLENCE, WE STRIVE TO BE A DISTINCTIVE LEAD SUPPLIER FOR THE ELECTRIFIED AUTOMOTIVE WORLD AND BEYOND.

GLOBAL CUSTOMER BASE:

Leading automotive OEMs and fast-growing e-mobility newcomers

VERSATILE AND RELIABLE BMS

platforms for automotive series applications

FOUNDED IN 2014

Founded in 2014 by industry experts in the field of electric mobility, automotive batteries and electronics

MANAGEMENT OWNED

Fully owned by founders, profitable and stable since the first year, constant organic growth through healthy cashflow

MUNICH ELECTRIFICATION

WHY TO WORK WITH US

01

WE ARE

- Highly motivated, exceptional young engineers from our international team.
- We are devoted to fast-pace innovation & quality-focused agility to shape the future of electric vehicles. One of our key strengths is our electric powertrain system know-how.
- Our fast-growing staff has contributed in major positions to the world's best electric vehicles. By being fully familiar with the crucial requirements on the battery side we know what it takes to develop a successful EV powertrain.

02

WHAT WE DO

- We develop and produce world-leading battery management systems regarding safety, features and cost.
- Our products stand out for function-integration, scalability, variant handling, space and weight. They are being used worldwide in multiple series production programs.
- Our fields of expertise also include the entire scope from embedded software development to model-based functions and advanced high-level algorithms for various cell chemistries (LFP, MNC, NCA).

03

OUR VALUES

- We are technology-driven and committed to developing cutting edge products.
- We are devoted to design products and advancing technological solutions that reflect sustainability in every facet.
- By thinking like owners, our employees guarantee the strong customer focus and ensure the long-term success of ME.
- Cooperativeness, open communication and transparency constitute our ME work culture. Diversity and loyalty define our team spirit.
